The most efficient way to get VR experience in your PC is by installing a good VR Headset. If you have already bought one, you can use your old PC headset. Another way is buying a standalone headset like Google Daydream, Sony PlayStation, or Nintendo Switch. This is the best option but not always possible. A good alternative is to use your Smartphone as VR Headset. This is the way I have decided to do it. You can buy a VR application for your Smartphone and use it as VR Headset. For this purpose, I have searched and found the app "iVRy Driver For SteamVR". SteamVR is a VR platform for Windows, Linux and macOS developed by Valve Corporation. It allows users to use a keyboard and mouse to interact with the games. With the help of iVRy, you can control games through your Smartphone. iVRy Driver For SteamVR iVRy Driver For SteamVR is an app that lets you use your smartphone as a VR Headset.
